

2. By protecting areas of high agricultural productivity.
 3. By encouraging farmers to develop conservation plans designed to make the most efficient use of land and to upgrade production.
 4. By encouraging the production of agricultural commodities and crops that can be processed in local plants.
- B. TO PRESERVE AND PROTECT THE NATURAL ENVIRONMENT IN THE RURAL PORTIONS OF THE COUNTY.
1. By preventing further water and soil pollution and the loss of topsoil through erosion by water and wind.
 2. By discouraging haphazard commercial and residential development from occurring along the county's major highways.
 3. By encouraging the adoption and enforcement of regulations designed to control the indiscriminate dumping of refuse on public and private lands.
 4. By requiring excavated sites or quarrying areas to be rehabilitated or reclaimed for recreational purposes or new land uses.
 5. By encouraging the adoption and enforcement of uniform sign and billboard regulations designed to provide adequate outdoor advertising, yet not degrade the county's scenic roadside landscape.
- C. TO PROMOTE THE DEVELOPMENT AND UPGRADING OF WOODLANDS THROUGHOUT THE COUNTY.
1. By encouraging the reforestation of idle or unproductive agricultural and pastureland.
 2. By encouraging forest management techniques to insure a programmed reforestation and systematic harvest of regional forestlands.
 3. By encouraging the multi-use of forestlands for wildlife, recreation, conservation, and watershed protection.

RECREATION

- A. TO PROVIDE ADEQUATE RECREATIONAL FACILITIES FOR ALL RESIDENTS AND ALL AGE GROUPS.
1. By providing an equitable distribution of recreation and open space facilities throughout the region to properly serve neighborhood, community and county needs.
